### Message from the Guest Editors

In this Special Issue, conference contributions from IDS 2024 can be presented in their extended form and should be more specifically focused on the following topics:

- The fundamentals, modeling, and simulation of drying;
- The physical properties and quality of dried products;
- Industrial drying processes and equipment;
- Measurement and control in drying processes;
- The energy-related and environmental issues of drying;
- Osmotic dehydration and drying;
- The drying of gases and liquids;
- The drying of powdered solids;
- Drying in biomass energy applications;
- The drying of food and agricultural materials;
- The drying of biological and pharmaceutical materials;
- The drying of chemicals and polymers;
- The drying of wood, pulp and paper, and forest products;
- Novel drying technologies and R&D opportunities.

## Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** CiteScore - Q2 (Chemical Engineering (miscellaneous))
