Department of Science and Technology, Faculty of Humanities, Management and Science, Universiti Putra Malaysia, Bintulu Sarawak Campus, Bintulu 97008, Sarawak, Malaysia

### Dr. Supakorn Boonyuen

Department of Chemistry, Faculty of Science and Technology, Thammasat University, Pathumthani 12121, Thailand

### Dr. Andou Yoshito

Department of Life Science and Systems Engineering, Graduate School of Life Science and Systems Engineering, Kyushu Institute of Technology, Fukuoka, Japan

### Message from the Guest Editors

This Special Issue welcomes manuscripts (original research papers, reviews or communications) covering all aspects of heterogeneous and homogeneous photocatalytic processes and applications for the degradation of organic pollutants and disinfection in water and wastewater, with a particular interest in graphene/ hybrid graphene materials. Submissions are welcome in, but are not limited to, the following areas:

- The development of a novel graphene hybrid for the photocatalytic remediation of wastewaters, including their preparation and characterizations;
- The photocatalytic degradation of emerging contaminants in wastewater;
- Scale-up approaches for photocatalytic degradation systems.

Deadline for manuscript submissions:

**closed (29 November 2024)**

Department of Drug Science and  
Technology, University of Turin,  
Via P. Giuria 9, 10125 Turin, Italy

## Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** CiteScore - Q2 (Chemical Engineering (miscellaneous))
