New Orleans, LA 70125, USA

Deadline for manuscript
submissions:

closed (30 November 2020)

Message from the Guest Editor

In this Special Issue on “Active Pharmaceutical Ingredients: Synthesis, Extraction and Separation Methods”, we invite principal investigators who are interested in APIs to contribute original research articles as well as review articles so as to advance fundamental and technical knowledge relevant to APIs synthesis, extraction, separation, and other processes.

Potential topics include but are not limited to the following:

- Methodology development of new or enhanced chemical processes for APIs;
- Methodology development of new or enhanced extraction protocols and separation technologies for APIs;
- Methodology development of new or enhanced separation protocols and technologies for APIs.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
