Message from the Guest Editors

This Special Issue on “Applied Computational Fluid Dynamics” is proposed, in which best practices, new methods, results, and frameworks can be presented aiming for the mutual advancement of the field as a whole. Furthermore, we aim to:

- Highlight the breadth of applied CFD modeling;
- Identify novel and emerging methods, capabilities, and applications;
- Explore limitations in existing capabilities and sources for validation.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**,
SCIE (Web of Science), **Ei Compendex**, **Inspec**, **AGRIS**, and **other databases**.

Journal Rank: JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
