Università degli studi Roma Tre,
00146 Rome, Italy

Message from the Guest Editors

This Special Issue on “Clean Energy Conversion Processes” aims to curate novel advances in energy conversion applications. Also, review papers providing critical overviews on state-of-the-art developments and supplementary guidelines of energy research are welcomed. Topics include, but are not limited to:

- Optimization of energy conversion systems
- Techno-economic analysis of novel systems
- Renewable energy sources electricity production
- Waste heat recovery/pollution prevention
- Energy storage and harvesting

Deadline for manuscript
submissions:

closed (25 November 2021)

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
