

Energy Conservation and Emission Reduction in Process Industry

Guest Editors:

Prof. Dr. Zhiqiang Sun

School of Energy Science and Engineering, Central South University, Changsha 410083, China

Dr. Yi Man

School of Light Industry and Engineering, South China University of Technology, Guangzhou 510006, China

Dr. Sheng Yang

School of Energy Science and Engineering, Central South University, Changsha 410083, China

Deadline for manuscript submissions:

closed (7 December 2021)

Message from the Guest Editors

This Special Issue on “Energy Conservation and Emission Reduction in Process Industry” aims to summarize the latest progress in the theory and application of energy conservation and emission reduction in process industry to address the long-term challenge of high-energy consumption and high pollution and promote sustainable development of the process industry. Topics include, but are not limited to:

- Innovations for sustainable process industry
- Process modeling and optimization for energy conservation and emission reduction
- Waste minimization and valorization
- Sustainable supply chain management for process industry
- Sustainability assessment with life cycle perspective

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
