Message from the Guest Editors

This Special Issue is designed to publish high-quality review papers in Processes. The issue will highlight a diverse set of topics related to process and systems technology for chemical, materials, biochemical, pharmaceutical, and biomedical applications. The scope of this Special Issue includes, but is not limited to: chemical and biochemical processes; cellular systems; material manufacturing; and systems modeling, simulation, optimization, and control. We are particularly interested in receiving manuscripts that review experimental and theoretical/computational studies as well as contributions from the industry.

Deadline for manuscript submissions:
29 February 2020
Editor-in-Chief

Prof. Dr. Michael A. Henson
Department of Chemical Engineering and the Institute for Applied Life Sciences, University of Massachusetts Amherst, N527 Life Sciences Laboratories, 240 Thatcher Way, Amherst, MA 01003, USA

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/systems related research in chemistry, biology, materials and allied engineering fields. Our goals are to publish high impact articles of broad interest to the process systems community and to serve as a forum for major developments in process/systems research. The journal publishes regular research papers, communications, letters, short notes, and reviews. There are no restrictions on the length of published articles or on the use of color illustrations. All submitted manuscripts undergo rigorous peer review prior to publication.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: Indexed in the Science Citation Index Expanded (Web of Science) and Inspec (IET). Covered in Scopus from Vol. 5 (2017).

CiteScore (2018 Scopus data): 2.05.
