Message from the Guest Editors

The Special Issue “The Application of Experimental and Numerical Methods in Fluid Mechanics and Energy 2020” aims to include extended papers from the conference. Topics include but are not limited to the following:

- Measurement and calculation of state variables in the fluid flow
- Modelling and simulation in fluid mechanics and energy
- Optimization of flow parameters in the thermal and hydraulic machines and systems
- Application of latest developments in the field of fluid mechanics and energy in technical practice
- Visualization of flow
- Measurement of energy systems and systems
- Special experimental methods in fluid mechanics and energy
- Renewable energy
- Current problems in the energy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
