

Recent Advances in Functional Materials Manufacturing and Processing

Guest Editor:

Dr. Qiong Cai

Chemical Engineering
Department, University of Surrey,
Guildford GU2 7XH, UK

Deadline for manuscript
submissions:

closed (20 April 2024)

Message from the Guest Editor

The Special Issue on “Recent Advances in Functional Materials Manufacturing and Processing” is being coordinated with the International Conference on Materials Science and Nanoscience (GSEMSN-2021). Topics of interest for submission include but are not limited to the following :

- Materials for advanced energy storage batteries
- Materials for fuel cells, solar energy and other energy conversion applications
- Materials for fuel conversion, such as H₂ production, CO₂ reduction, NH₃ synthesis, etc
- Biomaterials and biomedical polymers
- Thermodynamics and performance with materials applications
- Sustainability of materials
- Novel materials manufacturing and processing techniques

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
