Message from the Guest Editors

This Special Issue, Green Technologies: Bridging Conventional Practices and Industry 4.0, aims to incorporate the advances in green technologies to cyber-based industries. Topics include, but are not limited to, the following:

- Development of new disease-specific models to guide therapy;
- 3D printing
- Air pollution monitoring and control
- Carbon emission reduction
- Computational tools for environmental applications
- Energy and environmental policy
- Environmental monitoring, assessment and management
- Industry 4.0
- Process system engineering
- Renewable energy
- Solid/biomass waste treatment, management, and recycling
- Waste minimisation

Deadline for manuscript submissions:

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
