submissions:
closed (19 August 2021)

Message from the Guest Editors

The main objective of this interdisciplinary Special Issue of *Processes* is to bring together, at an international level, high-quality elegant collection of reviews, original articles, and short communications dealing with polymeric hybrid materials within different areas such as the following:

- Biomaterials chemistry, physics, engineering, and processing
- Polymer chemistry, physics, engineering, and processing
- Organic chemistry
- Composites science
- Colloidal chemistry and physics
- Porous nanomaterials science
- Energy storage
- Automotive and aerospace manufacturing

All the articles submitted to the Special Issue will undergo a thorough review process. This editorial will interest the broadest possible section of readership among materials scientists and engineers.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**,
SCIE (Web of Science), **Ei Compendex**, **Inspecc**, **AGRIS**, and **other databases**.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
