

Multiphase Flows and Particle Technology

Guest Editors:

Dr. Xizhong Chen

Department of Chemical and
Biological Engineering, University
of Sheffield, Sheffield S1 3JD, UK

Prof. Liping Li

School of Qilu Transportation,
Shandong University, Jinan
250061, Shandong, China

Dr. Li Ge Wang

Process Systems Enterprise,
London W6 7HA, UK

Deadline for manuscript
submissions:

closed (1 December 2022)

Message from the Guest Editors

This Special Issue aims to curate original research papers, short communications, and reviews in the fields of multiphase flows and particle technology. Particularly, recent developments and applications of experimental and computational approaches to address longstanding challenges in understanding the relevant processes are highly welcome. Topics include, but are not limited to:

- Particle characterization and formulation;
- Synthesis and processing of particles;
- Granular flows, gas-liquid flows, gas-solid flows or liquid-solid flows;
- Measurement techniques for multiphase flows;
- Multiscale model and theory development;
- Fluid-solid coupling and its applications in energy extraction;
- Coarse-grained modeling theory development and application;
- Data-driven or machine learning methods for industrial processes.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**,
SCIE (Web of Science), **Ei Compendex**, **Inspec**, **AGRIS**, and **other databases**.

Journal Rank: JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (Chemical Engineering (miscellaneous))
