

Special Issue

Development and Application of New Membrane Materials

Message from the Guest Editors

This Special Issue on “Development and application of New membrane materials” seeks high quality works focusing on the latest novel advances membrane technology for both gas and liquid separation. Topics include, but are not limited to:

- Polymeric material synthesis, structure design and chemical modification, post-treatment;
- Nanomaterial (zero dimension to three dimension materials) synthesis, structure design;
- Composite and mixed matrix membranes;
- Applications of developed new membrane material.

Guest Editors

Dr. Liang Shen

College of Resources and Environment, Southwest University, Chongqing 400716, China

Dr. Xuan Zhang

College of Chemistry and Materials Science, Shanghai Normal University, Shanghai 200234, China

Deadline for manuscript submissions

closed (15 November 2024)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
