

## Special Issue

# Innovations in Waste Treatment Through Bioprocess Technology: From Sustainable Remediation to Resource Recovery

### Message from the Guest Editors

Topics of interest for this Special Issue include, but are not limited to, the following:

- Sustainable remediation: innovations in utilizing bioprocess technology for the sustainable remediation of contaminated sites, including the application of microbial processes, biodegradation, and bioremediation techniques;
- Resource recovery: advances in the recovery of valuable resources from waste through bioprocess technology, such as the extraction of energy, chemicals, nutrients, or other useful products;
- Biodegradation and bioremediation: research on the use of microbial processes and bioprocess technology to degrade and remove pollutants, contaminants, and hazardous substances from various waste streams;
- Microbial communities in waste treatment: studies investigating the role of microbial communities and their dynamics in waste treatment processes, including their interaction with pollutants and their impact on overall system performance;
- Environmental sustainability: approaches and strategies to enhance the environmental sustainability of waste treatment through bioprocess technology, considering factors such as energy efficiency, carbon footprint, and waste minimization.

### Guest Editors

Dr. Husnul Azan Tajarudin

Prof. Dr. Salim Hiziroglu

Dr. Siti Baizura Mahat

### Deadline for manuscript submissions

closed (30 April 2025)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
