

Special Issue

Denitrification Process from Industrial Wastewater and Sewage Sludge Treatment Process

Message from the Guest Editors

This Special Issue on “Denitrification Process from Industrial Wastewater and Sewage Sludge Treatment Process” aims to discuss an environmentally friendly zero-waste-generation model. The findings and the resulting tool from this Special Issue will aid decision-makers as they seek sustainable sewage sludge treatment techniques and a more efficient and sustainable denitrification treatment process.

Guest Editors

Dr. Salma Tabassum

Prof. Dr. Jun Li

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
