

## Special Issue

# A Themed Issue in Honor of Professor Vicente Gómez Serrano: Innovation in Production, Characterization and Applications of Activated Carbon, Biochar and Other Carbon-Based Materials

### Message from the Guest Editor

Prof. Vicente Gómez Serrano was born in Monte Lope Álvarez (Jaén, Spain) and obtained his Ph.D. in Chemistry from the University of Granada in 1982. After a short stage in England, in 1983, he moved to the Department of Inorganic Chemistry at the University of Extremadura, where he has worked for nearly forty years and risen through the academic ranks to Full Professor. In addition to his teaching and management activities, Prof. Gómez Serrano has developed a very intense research activity, as evidenced by his outstanding contributions in the field of carbon-based materials. This Special Issue of *Processes* is intended to provide a broad overview of recent progress and research trends in the field of carbon-based materials. We strongly encourage Ph.D. students, collaborators, and friends of Prof. Gómez Serrano to submit their original contributions in order to honor his outstanding research career. Prof. Dr. Adrián Barroso-Bogeat

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
