Understanding Antimicrobial Agents: Exploring Pharmacokinetics, Pharmacodynamics, and Drug Interactions in the Context of One Health

Message from the Guest Editors

This Special Issue will serve as a platform for researchers, clinicians, and regulators, promoting a comprehensive approach to designing more effective and sustainable therapeutic strategies. We invite the scientific community to contribute original research articles, reviews, and perspectives on these topics, fostering innovation in treating infections within the One Health paradigm.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
