

Special Issue

Soil Remediation Processes

Message from the Guest Editors

This Special Issue on “Soil Remediation Processes” seeks high-quality works focusing on the various and multiple aspects of soil pollution and remediation, considering simultaneously or individually any of the solid, liquid, and gaseous phases of the tridimensional matrix configuring the whole edaphic system. Topics include, but are not limited to, the following:

- Any aspect of soil pollution, at the same time including founded proposals and/or experimental details to remediate the specific pollutants under study.
- Any aspect regarding founded proposals and/or experimental results dealing with any technology conceived to (and/or which has demonstrated to be useful to) obtain advancements in soil remediation or in any kind of soil pollution treatment.
- Specific aspects, such as manuscripts dealing with new materials to improve bioremediation, including biochar, surfactants, biosurfactants, nanomaterials, and others with demonstrated and/or promising value.

Guest Editors

Prof. Dr. Avelino Núñez-Delgado

Dr. María J. Fernández-Sanjurjo

Dr. Ana Barreiro

Prof. Dr. Esperanza Álvarez-Rodríguez

Deadline for manuscript submissions

closed (28 February 2025)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
