

Special Issue

Multi Dimensional Value Driven Sustainable Manufacturing Processes and Innovation

Message from the Guest Editors

This Special Issue focuses on innovative practices in sustainable manufacturing processes. It aims to bring together cutting-edge research results and explore manufacturing process models driven by multidimensional values. These models encompass intelligent production, applications of intelligent manufacturing technologies, management strategies, and supply chain management. The goal is to advance the development of a sustainable manufacturing ecosystem. This Special Issue aims to compile the latest research and developments in sustainable manufacturing, offering a comprehensive overview of the current state of knowledge and exploring future directions.

The scope of this Special Issue encompasses, but is not limited to, the following topics:

Paradigm Transition in Sustainable Manufacturing
Innovation in Technology Application and Management
Manufacturing process optimization driven by multidimensional value
Green Innovation Practices and Supply Chain Management
Policy and Strategy Formulation

Guest Editors

Prof. Dr. Conghu Liu

Dr. Xiaojiao Wang

Dr. Shitong Peng

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
Department of Drug Science and Technology, University of Turin, Via P.
Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
