

Special Issue

Recent Advances in Hydrocarbon Production Processes from Geoenergy

Message from the Guest Editors

This Special Issue aims to provide a comprehensive overview of the latest breakthroughs, technologies, and research findings in the field of hydrocarbon extraction from geological resources. This Special Issue also aims to capture the dynamic landscape of the energy industry, focusing on innovations that contribute to enhanced efficiency, sustainability, and environmental responsibility in hydrocarbon production.

- Advanced enhanced oil recovery (EOR) techniques
- Innovative drilling technologies
- Reservoir characterization and monitoring
- Digitalization and data analytics
- Sustainable practices and renewable integration
- Hydraulic fracturing innovations
- Carbon capture, utilization, and storage

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
