

Special Issue

Selected Papers from the Sustainable Energy and Process Technologies Conference

Message from the Guest Editors

In the face of global climate challenges and growing energy demands, the need for innovative and sustainable energy solutions has never been more critical. This Special Issue will report selected papers from the SEPTech conference and will also publish papers on the general topic of 'Sustainable Energy and Process Technologies'. The topics of this Special Issue include, but are not restricted to, the following:

- Sustainable energy conversion;
- Energy storage;
- Energy carriers;
- Biobased chemistry;
- Electrification of process industry;
- Process intensification;
- Novel conversion systems;
- Modeling of energy systems and processes.

Guest Editors

Prof. Dr. Fausto Gallucci

Inorganic Membranes and Membrane Reactors, Sustainable Process Engineering, Department of Chemical Engineering and Chemistry, Eindhoven University of Technology, 5612 AZ Eindhoven, The Netherlands

Dr. Shahriar Amini

Department of Mechanical Engineering, The University of Alabama, Tuscaloosa, AL 35401, USA

Deadline for manuscript submissions

5 December 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
