Advances in Modifications Processes of Bitumen and Asphalt Mixtures

Message from the Guest Editors

The Special Issue on “Advances in Modifications Processes of Bitumen and Asphalt Mixtures” seeks high quality works focusing on performance investigation of different aspects of bituminous materials with the addition of different non-traditional materials. Topics include, but are not limited to the following:

- Experimental investigation on asphalt and bitumen mixtures;
- Use of recycled materials in pavements;
- Performance evaluation of bitumen and asphalt;
- Changes in chemical and rheological properties of asphalt with the addition of new materials;
- Construction methods for modified asphalt mixtures;
- Testing procedures for asphalt mixtures;
- Reducing environmental impact of road construction;
- Innovative uses of modified asphalt and its mixtures;

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
