

Special Issue

Advances in Organic Food Processing and Probiotic Fermentation

Message from the Guest Editor

This Special Issue on “Advances in Organic Food Processing and Probiotic Fermentation” seeks high-quality research focusing on the latest advancements and trends that are shaping the future of organic food processing and probiotic fermentation, contributing to the development of healthier and more sustainable food products. We welcome submissions that address a wide range of topics, including but not limited to the following: The development and optimization of novel fermentation processes for organic food production. Innovative approaches in enhancing the safety, quality, and functional properties of probiotic foods and beverages. The exploration of health benefits linked to bioactive compounds produced during fermentation. The impact of different microbial strains and fermentation conditions on sensory and nutritional quality. Sustainable and scalable approaches to organic food processing and fermentation techniques.

Guest Editor

Dr. Xueqian Su

Department of Food Science and Technology, Virginia Polytechnic Institute and State University, Blacksburg, VA 24060, USA

Deadline for manuscript submissions

20 November 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
