

## Special Issue

# Trends in Extraction, Chromatographic Separation and Detection Techniques for the Analysis of Natural Organic Compounds

### Message from the Guest Editors

Nowadays, more and more different chromatographic approaches with a variety of sample preparation procedures, extraction and detection techniques are used for the isolation, separation, identification and quantification of unknown and known organic compounds from a wide range of natural samples (plant samples, environmental samples such as water or soil samples, etc.). Today, chromatography is a very useful technique for the analysis of various organic molecules and, when combined with appropriate detectors, offers higher sensitivity and selectivity for trace analysis of multicomponent mixtures. For this special issue, researchers are invited to submit original work on new or improved extraction techniques and analytical methods that use chromatographic methods for the separation and determination of unknown and known organic compounds from various natural matrices, and also to discuss the potential of newly applied methods.

### Guest Editors

Dr. Maša Islamčević Razboršek

Faculty of Chemistry and Chemical Engineering, University of Maribor,  
Smetanova ulica 17, SI-2000 Maribor, Slovenia

Prof. Dr. Marjana Simonič

Faculty of Chemistry and Chemical Engineering, University of Maribor,  
Smetanova ulica 17, SI-2000 Maribor, Slovenia

### Deadline for manuscript submissions

closed (20 December 2023)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
