

Special Issue

Synthesis of Natural Products and Drug Active Molecules

Message from the Guest Editors

The purpose of this Special Issue is to collect original scientific articles, communications and reviews on all aspects of the methodology used to obtain biologically active compounds. Mainly, we want to focus on the presentation of new organic synthesis protocols using biotechnological methods. Research into the improvement of existing methods in the field of catalytic or multi-component synthesis is also welcome. In addition, the issue may include meta-analyses and articles using bioinformatics tools in drug design.

Keywords

- organic synthesis
- green chemistry
- stereoselective synthesis
- biocatalysis
- retrosynthesis
- environmentally friendly processes
- sustainable chemistry
- drug discovery
- structure–activity relationships
- mechanisms of action

Guest Editors

Dr. Wanda Mączka

Prof. Dr. Katarzyna Wińska

Dr. Anna Pawełczyk

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
