

Special Issue

Separation Processes for Environmental Preservation

Message from the Guest Editors

The submission of manuscripts involving novel technologies and new materials or mixtures of well-known processes are most welcome for this Special Issue. Topics include, but are not limited to:

- Novel adsorbents (mainly from low-added materials) and applications in synthetic effluents that are similar to natural ones;
- Novel membranes applied to industrial wastewater treatment;
- New coagulation and flocculation materials;
- Non-conventional oxidative processes;
- Integrated green technologies and a circular economy.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
