

Special Issue

Advances in Remediation of Contaminated Sites: 3rd Edition

Message from the Guest Editors

Site remediation technology has developed rapidly in recent years, and has brought hope for environmental remediation. However, it has also encountered bottlenecks, and new breakthroughs are urgently required. With the success of [Volumes I and II](#) of the Special Issue “Advances in Remediation of Contaminated Sites”, we have decided to continue organizing the Special Issue on this subject and launch a third volume, “Advances in Remediation of Contaminated Sites: 3rd Edition”. Here, we aim to gather the latest advancements in the remediation of contaminated sites to help overcome bottlenecks in the development of site remediation technology. We invite researchers to contribute original research papers, review articles, and communications on related subjects to this Special Issue. Topics of interest include, but are not limited to, the following:

- Survey and assessment of contaminated sites;
- Environmental processes and effects of pollutants;
- Remediation technology and its application in contaminated sites;
- Remediation strategy and management in contaminated sites.

We look forward to receiving your contributions.

Guest Editors

Prof. Dr. Guining Lu

Prof. Dr. Zenghui Diao

Prof. Dr. Yaoyu Zhou

Dr. Kaibo Huang

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
