

Special Issue

Studies of the Dosage Form and Stability of the Drug by Various Techniques, 2nd Edition

Message from the Guest Editor

This is the second volume of the Special Issue titled "Studies of the dosage form and stability of the drug by various techniques", which was highly successful. In the first volume, we published 11 articles.

(https://www.mdpi.com/journal/processes/special_issues/Stability_Drug). This Special Issue aims to curate novel advances in the development and application of different analytical techniques in drug analyses. Topics of interest include, but are not limited to:

- The dosage form of the drug and its stability;
- Physical factors influencing the shelf life of medicinal products;
- Chemical factors influencing the shelf life of medicinal products;
- Microbiological factors influencing the shelf life of medicinal products;
- Stabilization treatments during drug preparation;
- Drug stability study;
- Drug purity testing;
- The use of new media in the formulation of a dosage form with model substances;
- The influence of the composition of the tablet mass on the availability of micro- and macro-elements;
- The determination of the active substance in medicinal products;
- Drug quality assessment;
- Dosage form technology.

Guest Editor

Prof. Dr. Alina Pyka-Pająk

Department of Analytical Chemistry, Faculty of Pharmaceutical Sciences in Sosnowiec, Medical University of Silesia in Katowice, Jagiellońska 4, 41-200 Sosnowiec, Poland

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
