

## Special Issue

# Membrane Separation for Wastewater Treatment and Recycling

### Message from the Guest Editors

This Special Issue on “Membrane Separation for Wastewater Treatment and Recycling” seeks high-quality works which explore the latest novel advances in membrane technology for liquid separation. Topics include, but are not limited to, the following:

- The separation of pollutants (such as micropollutants and microplastics, emerging drugs, and pesticides) by membranes;
- The application of membrane technology for separation of metals from recycling and mining;
- The treatment of wastewater from electroplating;
- The separation of metals from industrial processes;
- Electrodialysis.

We gladly invite you to submit your work to this Special Issue. Dr. Amilton Barbosa Botelho Junior

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto  
Department of Drug Science and Technology, University of Turin, Via P.  
Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
