

Special Issue

Production, Analysis and Application of Functional Water in Industry

Message from the Guest Editor

This Special Issue on “Application of Functional Water on Industry” aims to recruit valuable academic research results and information regarding functional water applications in industrial fields including agriculture, veterinary medicine, forestry, fishery, pet industry, disease control and devices. Topics include, but are not limited to:

- Application of functional water in industry;
- Application of hydrogen water and HOCl water in agriculture and veterinary medicine;
- Application of functional water in food processing and storage;
- Application of functional water in sanitation and stink management in the livestock industry;
- Application of functional water to the prevention and treatment of infectious disease in veterinary medicine and disease control;
- The methods, skills and devices related to functional water application.

Guest Editor

Prof. Dr. Kyu-Jae Lee

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
