

Special Issue

Green Technologies for Synthesis of Organic Compounds

Message from the Guest Editor

This Special Issue welcomes original research articles, reviews, and communications that contribute to the advancement of green technologies in organic synthesis. We encourage interdisciplinary research that combines principles of chemistry, engineering, and environmental science to address the challenges and opportunities in sustainable organic synthesis. Join us in this endeavor to promote and disseminate ecofriendly practices in the field of organic synthesis, as we work towards a more sustainable and environmentally conscious future.

Guest Editor

Dr. Haisu Zeng

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
