Exploitation Technology and Production Control of Natural Gas Hydrate

Message from the Guest Editor

This Special Issue, "Exploitation Technology and Production Control of Natural Gas Hydrate", covers the latest research results on the safe decomposition methods and applications of natural gas hydrate. Topics include, but are not limited to, methods and/or applications in the following areas:

- Gas hydrate exploitation technology;
- Regional characteristics of gas hydrate area;
- Natural gas hydrate decomposition process;
- Natural gas hydrate's thermodynamic properties;
- Gas hydrate exploitation economy;
- Gas hydrate's mechanical properties.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
