

Special Issue

Sustainable Processing and Utilization of Dairy Products

Message from the Guest Editors

Through this Special Issue, we intend to provide a comprehensive overview of the latest advancements and innovations in processing dairy products (such as milk, cheese, cream, butter, ice cream, yoghurt, and fractionated dairy ingredients) using advanced technologies for improving their safety and quality. In addition, emerging technologies for dairy ingredient preparation are included. We invite you to submit original reviews, research papers and communications that discuss the influence of cutting-edge technologies in this area of research.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
