

Special Issue

Design, Optimization and Evaluation of Solar Energy Systems

Message from the Guest Editors

This Special Issue, entitled “Design, Optimization and Evaluation of Solar Energy Systems”, seeks high-quality studies focusing on the latest advancements and challenges in solar energy technologies. Topics include, but are not limited to, the following:

- System design and integration;
- Optimization algorithms for energy efficiency;
- Energy storage solutions;
- Role of solar energy in smart grids and decentralized energy systems;
- Utilization of models or simulations in system evaluation;
- Techno-economic analyses;
- Energy/exergy analyses;
- Environmental or life cycle assessments;
- Value and supply chain evaluations;
- Other related methodologies.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
