

Special Issue

Advances in Solar Energy and Heat Storage Systems

Message from the Guest Editors

Green energy is strongly demanded for reducing the emission of greenhouse gases. Solar energy and heat storage systems provide renewable energy and have attracted much attention. This Special Issue, entitled “Advances in Solar Energy and Heat Storage Systems”, aims to focus on the latest advancements in solar energy and thermal storage, including, but not limited to, solar energy, photothermal therapy, photothermal conversion, photothermal materials, photothermal catalysis, photoelectrics, solar evaporation, photothermal microscopy, photodesalination, thermal storage, and thermochemical energy. This Special Issue aims to collate novel materials, methods, and technology for solar energy and heat storage. Therefore, it is our pleasure to invite you to submit a manuscript to this Special Issue.

Guest Editors

Prof. Dr. Qinpei Wu

School of Chemistry and Chemical Engineering, Beijing Institute of Technology, Beijing 102488, China

Dr. Min Xu

Institute of Engineering Thermophysics, Chinese Academy of Sciences, Beijing 100190, China

Deadline for manuscript submissions

15 December 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
