

Special Issue

Studies on Waste Resource Utilization and Its Processing Technologies

Message from the Guest Editor

This Special Issue, 'Studies on Waste Resource Utilization and Its Processing Technologies', invites submissions of high-quality research that emphasizes waste resource valorization using both conventional and innovative methodologies, with a focus on achieving technical, environmental, social, and economic sustainability. Relevant topics for consideration include, but are not limited to, the following:

- Production and processing technologies for refuse-derived fuels (RDFs);
- Thermochemical conversion methodologies for waste-to-energy applications;
- Biological conversion strategies for energy recovery from waste;
- Techno-economic analyses and life cycle assessments of waste resource utilization practices;
- Waste reuse, recycling, and resource recovery strategies;
- Experimental and mathematical modeling of waste-to-energy conversion technologies;
- Comprehensive waste characterization and management practices.

Contributions that advance our understanding and implementation of these topics are highly encouraged in order to further the discourse in this critical field of study.

Guest Editor

Prof. Dr. Satyanarayana Narra

1. Department of Waste and Resource Management, University of Rostock, 18051 Rostock, Germany
2. German Biomass Research Centre (DBFZ), 04347 Leipzig, Germany

Deadline for manuscript submissions

5 December 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
