

Special Issue

Advances in Interactions of Polymers in Emulsion Systems

Message from the Guest Editors

This Special Issue, “Advances in Interactions of Polymers in Emulsion Systems”, aims to highlight the current progress in polymer interactions (for polymer–polymer or polymer–surfactant complexes) in emulsion systems. Preference will be given to non-toxic, biodegradable polymers that, when applied to any field in the industry, can enhance and preserve production. We welcome original research articles and reviews for submission. Topics include, but are not limited to, the following:

- Current trends in the application of polymers in emulsion systems;
- Emulsion systems stabilized by polymers for cosmetic, pharmaceutical, and food applications;
- Interfacial properties of polymer–polymer and polymer–surfactant interactions in the liquid system;
- The interaction of plant biopolymers in emulsions;
- The interaction of animal biopolymers in emulsions.

We look forward to receiving your contributions.

Guest Editors

Dr. Jelena Milinković Budinčić

Prof. Dr. Ljiljana Đekić

Prof. Dr. Lidija B. Petrović

Deadline for manuscript submissions

10 August 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
