Special Issue

Preparation and Electrochemical, Photochemical and Catalytic Properties of Nanomaterials

Message from the Guest Editor

This Special Issue, entitled "Preparation and Electrochemical, Photochemical, and Catalytic Properties of Nanomaterials," aims to showcase the most recent developments on an international scale with a high-quality collection of reviews and articles relating to the development of various preparation methods for various types of nanoparticles. Our aim is that submitted work will focus on comprehending the catalytic, electrochemical, and photochemical properties of nanoparticles from the point of view of various areas of applications. We welcome submissions of original research and review articles on potential topics. These include, but are not limited to, the following:

- Preparation of nanomaterials;
- Electrochemical applications of nanomaterials;
- Photochemical applications of nanomaterials;
- Catalytic applications of nanomaterials;

Guest Editor

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
