

Special Issue

Feature Reviews in Food Processing Technologies: Present Innovations and Future Opportunities

Message from the Guest Editors

Feature reviews in food processing technologies provide high-quality review papers with comprehensive analysis of present innovations and future opportunities shaping the food industry. Innovations in food preservation techniques and advanced packaging are significantly extending shelf life and reducing waste.

This Special Issue invites the submission of review papers on food processing technologies. Each article should contribute to the further comprehension of a specific food science and technology area. Scope and information for authors:

- Detection and surveillance enabled by artificial intelligence;
- Energy-efficient food processing methods;
- Modern food processing methods;
- Unit operations in food production;
- Utilization of byproducts in food processing, such as vegetable biomass and nanocellulose, leading to food waste reduction;
- Innovative technologies and food products;
- Food safety measures against microbiological contamination, focusing on isolation, detection, and intervention techniques.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
