Innovations in Green Separation and Extraction Processes of Natural Products

Message from the Guest Editors

This Special Issue on “Innovations in Green Separation and Extraction Processes of Natural Products” seeks high-quality works focusing on the latest novel advances in extraction technology and green separation. Topics include, but are not limited to:

- Innovative and advanced green separation technologies, process intensification, agro-solvents and energy saving;
- The use of alternative solvents and principally water or agro-solvents;
- Obtaining non-denatured and biodegradable extract without contaminants;
- Reducing unit operations and favouring safe, robust, and controlled processes

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
