

Special Issue

Extraction Processes, Modeling, and Optimization of Oils

Message from the Guest Editor

The scope of this Special Issue covers various methodologies, ranging from conventional techniques to emerging green technologies, supported by modeling and process optimization tools. Contributions exploring challenges in scaling up, life cycle assessments, multifunctional oil developments, and full raw material utilizations are relevant. This Special Issue provides a platform for disseminating innovative and interdisciplinary research that bridges fundamental knowledge and practical applications across the food, pharmaceutical, cosmetic, and biofuel industries. We look forward to your contributions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
Department of Drug Science and Technology, University of Turin, Via P.
Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
