Advancements in Electrodialysis for Sustainable Water and Wastewater Treatment: Innovations, Applications and Future Directions

Message from the Guest Editor

This Special Issue on "Advancements in Electrodialysis for Sustainable Water and Wastewater Treatment: Innovations, Applications and Future Directions" seeks high-quality research findings and approaches while exploring the latest developments in electrodialysis, showcasing breakthroughs in materials science, system design, and novel applications shaping the future of this promising technology. The topics include, but are not limited to, the following: **Improved Membrane Materials Integration with Hybrid Systems Energy Optimization Resource Recovery Selective Ion Removal Compact and Modular Systems Electrodialysis for Emerging Contaminants**

Guest Editor

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy
