

## Special Issue

# Solid and Hazardous Waste Disposal and Resource Utilization

### Message from the Guest Editors

The scope of this Special Issue includes, but is not limited to, the following:

- Research on the application of non-thermal plasma and environment-friendly functional material coupling technology in the field of solid waste/hazardous waste thermal treatment and the utilization process;
- Research on solid waste/hazardous waste disposal, resource utilization and secondary pollution control process technology and industrialization.
- Research on technologies and management methods related to pollution reduction, carbon reduction and synergistic efficiency in the enterprises, industry and industrial realms.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
