# Processes in Agri-Food Technology

### Message from the Guest Editor

The Special Issue “Processes in Agri-Food Technology” aims to explore innovative processes and engineering that enhance agrifood productivity, sustainability, and quality. This Issue invites original research and review articles that address advancements in food processing, agricultural engineering, smart farming, and the integration of IoT and AI in food systems. Topics may include but are not limited to novel food preservation methods, sustainable agricultural practices, resource optimization, and innovative processing engineering that contribute to global food security.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
