Recent Trends in Extractive Metallurgy

Message from the Guest Editors

This Special Issue invites the scientific and technological community to present papers and studies on the different areas and disciplines of extractive metallurgy (hydrometallurgy, pyrometallurgy, and electrometallurgy) and those related to it, such as mineral processing (gravimetric concentration, magnetic, and flotation). The application of extractive metallurgy operations and processes for the values recovery, recycling, reduction and treatment of mining and metallurgical wastes (and urban wastes, such as electronic scrap) is also welcome. Keywords:

- extractive metallurgy process
- hydrometallurgy
- pyrometallurgy
- electrometallurgy
- flotation
- remedation
- green processes

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
