Special Issue

Energy Storage Planning, Control, and Dispatch for Grid Dynamic Enhancement

Message from the Guest Editors

This Special Issue on "Energy Storage Planning, Control, and Dispatch for Grid Dynamic Enhancement" aims to introduce the latest planning, control, and dispatch technologies of energy storage systems to enhance grid dynamic performance. Topics include, but are not limited to, methods and/or application in the following areas:

- New energy storage technologies, equipment, and applications;
- Energy storage technologies and their applications in power grids and renewable energy stations;
- Technologies for energy storage participation in voltage and frequency regulation of power grids;
- Integrated source-grid-load-storage modeling and simulation technologies;
- Integrated source-grid-load-storage planning, design, and operation technologies;
- Integrated source-grid-load-storage coordinated control technologies.

Guest Editors

Dr. Rui Wang

College of Information Science and Engineering, Northeastern University, Shenyang 110819, China

Dr. Wentao Jiang

School of Automation, Northwestern Polytechnical University, Xi'an 710072, China

Deadline for manuscript submissions

15 December 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
