

Special Issue

Processing and Bioactivity Evaluation of Functional Foods

Message from the Guest Editor

This Special Issue aims to bring together interdisciplinary studies from food science and plant science, particularly those investigating the extraction, transformation, and incorporation of bioactive compounds into functional food products. Emphasis should particularly be placed on the effects of thermal and non-thermal processing, formulation strategies, and their implications on compound functionality and product quality. Studies addressing health benefits, the mechanism of action, consumer acceptance, and market potential of processed functional foods are especially welcome. Key topics of interest include (but are not limited to) the following:

- The impact of processing on the function and structure of bioactive compounds;
- Functional food product development and innovation;
- The stability and bioavailability of nutraceuticals;
- The health-promoting effects of plant-derived compounds;
- Analytical techniques for bioactivity assessments;
- The consumer perception and sensory evaluation of functional foods.

Guest Editor

Dr. Muhammad Yasir Naeem

Department of Agronomy, Food, Natural Resources, Animals and Environment, University of Padova, 35122 Padova, Italy

Deadline for manuscript submissions

15 July 2026

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
Department of Drug Science and Technology, University of Turin, Via P.
Giuria 9, 10125 Turin, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
