

## Special Issue

# Eco-Friendly Advanced Processes for Efficient Removal of Emerging Contaminants from the Environment

### Message from the Guest Editor

Emerging contaminants are a large group of chemical compounds found in the environment due to regular human activities such as domestic, agricultural, and industrial processes. These pollutants' persistence and long-range mobility have harmful consequences for ecosystems and human health, even at low concentrations. Over the past decades, anthropogenic compounds such as drugs, pesticides, endocrine disruptors, and dyes in the environment have become a global issue of increasing concern. As a result, there is a pressing need to treat these toxic pollutants via appropriate treatment options.

We invite all the participants to submit original and scientific studies related to, but not limited to, the following topics:

- Environmental and Green Processes
- Science, Technology, and Sustainability Engineering
- Water/Wastewater Treatment, Process Technology, and Recycling
- Treatment of Polluted Air and Soil
- New Nanomaterials for Processes
- Electrochemical Oxidation Processes
- Energy Analysis of Processes

### Guest Editor

Dr. Yassine Kadmi

Faculty of Sciences and Technologies, University of Lille, Lille, France

### Deadline for manuscript submissions

closed (10 April 2024)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

#### Journal Rank:

CiteScore - Q2 (Chemical Engineering (miscellaneous))
