New Research on Oil and Gas Equipment and Technology, 2nd Edition

Message from the Guest Editors

This Special Issue on “New Research on Oil and Gas Equipment and Technology” seeks high-quality work that focuses on the latest novel advances in the design, modeling, analysis, and evaluation of oil and gas equipment. Topics include, but are not limited to, the following:

- Design and optimization;
- Processes and safety;
- Failure analysis;
- Fatigue and life;
- Structural reliability;
- Vibration;
- Rock-breaking tools and technology;
- Corrosion;
- Detection and monitoring;
- Offshore petroleum engineering;
- New technology.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.
