

Special Issue

Design and Resource Utilization of Asphalt Materials

Message from the Guest Editors

This Special Issue focuses on asphalt materials and pavement structures. Particular topics of interest for this Special Issue include, but are not limited to, the following:

- New modification technology for asphalt binders;
- Aging and recycling of asphalt binders;
- Adhesion and moisture damage of asphalt surfaces;
- Application of solid waste to asphalt pavement;
- Application of reclaimed rubber and plastic materials in asphalt binders;
- Functional asphalt materials;
- Warm and cold mix asphalt materials;
- Smart pavement materials;
- Design of smart roads;
- Performance evaluation and prediction.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
